"President's Own" Regiment to Embark Tomorrow to Reinforce the American Troops In Front of Santiago—Description of the Warships Destroyed by the United States Fleet—Order for Troops at Chickamauga to Move to the Front Received.

Washington, July 5.—Late last night the navy department posted the appended translation of a cipher cablegram received from Commodore Watson:

To the Secretary of the Navy, Washington:

Playa del Este, July 3.—At 9:30 a.m.

today the Spanish squadron (seven in all)

including one gunboat, came out of Santiago in column, and was totally destroyed within an hour, excepting Cristobal Colon, which was chased 45 miles to westward by the commander-in-chief, Brooklyn, Oregon and Texas, surrendering to Brooklyn, but was beached to prevent sinking.

None of our officers or men were injured, except on board Brooklyn. Chief Yeoman Ellis was killed and one man wounded. Admiral Cervera, all commanding officers, excepting Oquendo, about 70 other officers and 1,600 men are prisoners. About 350 killed or drowned, 100 wounded and 1,600 captured. Commodore Watson's dispatch follows:

Hobson's Release.

The release of Hobson and the other heroes of the Merrimac incident is likely to be one of the results of the events transpiring yesterday. It may now come about either by the surrender of the city, which would include the surrender of Hobson and other American prisoners in the city, or else by the exchange of Hobson for Admiral Cervera or some other high ranking naval official.

To exchange a Spanish admiral for an American naval constructor might seem strange under ordinary circumstances, but it would be done without any begrudging by the authorities here and would be particularly appropriate in view of the action of Cervera at the time Hobson surrendered to him.

the effects of this crushing defeat in weakening the defences of the city of Santiago, and in dealing Spain such a staggering blow that she is left practically without a navy. Sampson's dispatch follows:

The fleet, under my command, offers the nation as a Fourth of July present the destruction of the whole of Cervera's fleet—not one escaped. It attempted to escape at 9:30 a.m. and at 2 p.m. the last, the Cristobal Colon, had run ashore 60 miles west of Santiago, and had let down her colors. Loss, one killed and two wounded. Enemy's loss, several hundred, including 1,800 prisoners. Admiral Cervera taken prisoner.

That but one of our sailors, a yeoman on the Brooklyn, should have been killed in an engagement of such magnitude, is without a parallel in naval annals, save in that other unparalleled record which Dewey made at Manila. With the Spanish fleet destroyed, the way is partly cleared for the advance of the American squadron into the harbor of Santiago. If Cervera's armored cruisers could cross the mine field and clear the Merrimac at the entrance of harbor, the American ships can follow the same course. There are the inner fortifications and island forts still to be reduced, but they have passed through a baptism of fire recently and are little more than ruins. Thus with Shafter's guns thundering on Santiago from the land, and Sampson's from the harbor, the fall of the city is assured beyond further question.

Shafter's Demand Still Being Considered.

General Shafter has cabled that his demand for the surrender of Santiago is still being considered by the Spanish authorities, which indicates that the refusal of the Spanish commander to capitulate was not final. In any event, 12 o'clock today marks the limit of Shafter's concession and if Santiago did not capitulate at that hour, the great sea guns, backed by the batteries of lighter field pieces, have begun their work of destruction.

The pressing need of reinforcing Shafter is no longer felt, now that the Spanish fleet is out of the way. A considerable number of men, however, are already on the way and others will follow.

The changed naval situation will bring no abatement in the activity of the authorities here in carrying the war directly home to Spain.

There is renewed determination to get Commodore Watson's eastern squadron away at the earliest moment, for the double purpose of striking a blow at the coast towns of Spain and of pursuing Admiral Cervera's fleet which has halted at the entrance of the Suez canal.

Hobson's Release.

The release of Hobson and the other heroes of the Merrimac incident is likely to be one of the results of the events transpiring yesterday. It may now come about either by the surrender of the city, which would include the surrender of Hobson and other American prisoners in the city, or else by the exchange of Hobson for Admiral Cervera or some other high ranking naval official.

REINFORCEMENTS.

Sampson Reports Results of His Fight With Spain's Crack Fleet.

Washington, July 5.—The complete annihilation of the Spanish squadron at Santiago and the capture of the Spanish admiral, Cervera, with 1,300 prisoners; the demand by General Shafter for the surrender of Santiago by today noon on pain of bombardment; word from Admiral Dewey that the Ladrones Islands had surrendered, that a Spanish gunboat had surrendered, that 100 or more Spanish officers and men were taken and that our first Philippine expedition had landed—is this in part the thrilling record of such a Fourth of July as has not been known since the bells of Independence Hall rang out the tidings of American freedom. Yesterday was a day when one momentous event followed another in constant and rapid succession, each hour bringing forth

the armor of these ships made them particularly formidable. On the water-line there was a belt of armor 5 feet 6 inches broad and 315 feet long of 12 inches in thickness and of steel. The turrets were surrounded with 9 inches of steel armor, the conning towers 12 inches.

The protected deck covering the vitals of the ship had from 2 inches to 3 inches of steel. Surrounding the ammunition tubes and magazines was a circle of 8 inches of steel.

The armament consists of 40 guns and from six to eight torpedo tubes on each ship. In detail these guns were two 11-inch Honoria breech-loading guns in turrets, one forward and one aft, ten 5.5 inch Honoria quick fires, five on each beam, the forward and after ones being sponsored, eight 6-pound quick fires. Ten 1-pounder quick fires, eight Nordenhoff machine-guns, two Maxims machine-guns.

The Vizcaya had six torpedotubes and the other two ships eight torpedotubes.

On each ship two of the torpedotubes were submerged. Each ship carried a complement of 48 men.

The Cristobal Colon was substantially similar, but was of later build, being turned out in 1896 at Sestri Ponente. She was 6,410 tons, 338 feet long and in other respects was similar to the three first named ships, with slight variations. She carried a complement of 500 officers and men.

The torpedo-boat destroyers were of

the latest type of these formidable craft.

Their armament consisted of six guns, the heaviest being 14-pouders, quick fire; also two 14-inch torpedo tubes on deck. Each had a complement of 70 officers and men.

The total number of men, officers and crew was 2,062 on the seven ships.

STATEMENT TO FOOL THE DONS.

Madrid, July 5.—The following semi-official statement was issued yesterday afternoon: "The semaphore from Morro castle to Santiago says the Spanish squadron, after a cannonade with the Americans showed no signs of injury, therefore, the Americans' news of the rout of Admiral Cervera must be utterly untrue. Moreover Admiral Cervera's squadron is faster than Admiral Sampson's."

KILLED ON THE BROOKLYN WAS A NATIVE OF ILLINOIS.

Washington, July 5.—George H. Ellis, the only man in the United States navy who was killed in the glorious engagement of Santiago was chief yeoman of Commodore Schley's flagship Brooklyn, in which office he succeeded Downing, the Spanish spy captured by secret service officers in Canada and who ended his career by suicide in the Washington barracks, while awaiting trial. Ellis is a native American, having been born at Peoria, Ills., Oct. 21, 1871. His naval career was very brief, he having enlisted on May 30, 1897, and his only cruise being that which resulted in his death. His next of kin is his wife, Sadie Ellis, who lives at Bulls Head, N. Y.

TROOPS ORDERED TO THE FRONT WILL REMAIN AT CHICKAMAUGA.

Chickamauga National Military Park, Ga., July 5.—The railroad companies yesterday afternoon had all their trains on the siding at Rossville and Ringgold to carry the six regiments of troops ordered to the front and last night the Southern railroad had sent a Pullman train to Rossville to get General Wilson, who was to be in command of the expedition and his staff who were to leave for Charleston. At Rossville the trainmen received orders to return to the city, an order having been received from Washington rescinding the order to move the troops. It is understood from this that the department has made a complete change of plans,

STORY TOLD BY SAMPSON.

The story of the day is best told in the official dispatch, bearing date of July 4, from Sampson, from Shafter and from Dewey. Stirring as they are, that of Sampson was accorded the honor of chief importance, not only for the immediate results secured, but also from

WASHINGTON, July 5.—The annihilation of Admiral Cervera's fleet is a terrible blow to Spain as this fleet was far more formidable than that wiped out by Admiral Dewey at Manila, and was the strongest flotilla of ships Spain had afloat. It consisted of the four armored cruisers Vizcaya, Oquendo, Cristobal Colon and Maria Teresa and the three torpedo boat destroyers Platon, Furor and originally the destroyer Terror, but last advices place her at San Juan, Porto Rico, where she had been crippled by the St. Paul.

The Vizcaya, Maria Teresa and Oquendo were sister ships built at Bilbao, in 1890-91. Their speed of 18.5 knots was given by engines having a

CERVERA'S FLEET.

Which Was Totally Annihilated by Sampson.

Washington, July 5.—The annihilation of Admiral Cervera's fleet is a terrible blow to Spain as this fleet was far more formidable than that wiped out by Admiral Dewey at Manila, and was the strongest flotilla of ships Spain had afloat. It consisted of the four armored cruisers Vizcaya, Oquendo, Cristobal Colon and Maria Teresa and the three torpedo boat destroyers Pluton, Furor and originally the destroyer Terror, but last advice place her at San Juan, Porto Rico, where she had been crippled by the St. Paul.

total power of 9,500. On forced draft they were capable of making 20.5 knots.

The release of Hobson and the other heroes of the Merrimac incident is likely to be one of the results of the events transpiring yesterday. It may now come about either by the surrender of the city, which would include the surrender of Hobson and other American prisoners in the city, or else by the exchange of Hobson for Admiral Cervera or some other high ranking naval official.

To exchange a Spanish admiral for an American naval contractor might seem strange under ordinary circumstances, but it would be done without any begrudging by the authorities here and would be particularly appropriate in view of the action of Cervera at the time Hobson surrendered to him.

REINFORCEMENTS.

The "President's Own" Regiment Will Be Sent to Shafter.

Washington, July 5.—Reinforcements are to be hurried to General Shafter as rapidly as steamships can carry them, notwithstanding the fact that additional troops are not now so badly needed as was indicated by the developments of Friday and Saturday.

The dispatches received by the war department from General Shafter show a confidence in his present ability to control the situation.

Late yesterday Secretary Alger, General Miles and General Corbin had a conference with the president concerning the sending of reinforcements to Shafter and it was determined to take no chances, but to send the troops at once.

The auxiliary cruiser St. Paul is now in New York taking on a cargo of ammunition for Admiral Sampson's fleet. It was not originally intended to send troops by her, but yesterday afternoon it was decided she should take one regiment. In accordance with that determination orders were issued for the Eighth Ohio infantry, the regiment known as "The President's Own," to be hurried to Santiago.

The armament consists of 40 guns and

from six to eight torpedo tubes on each ship. In detail these guns were two 11-inch Honoria breechloading guns in turrets, one forward and one aft, 5.5 inch Honoria quick fires, five on each beam, the forward and after ones being sponsored, eight 6-pounder quick fires. Ten 1-pounder quick fires, eight Nordenhoff machineguns, two Maxim machineguns.

The Vizcaya had six torpedotubes and the other two ships eight torpedotubes. On each ship two of the torpedotubes were submerged. Each ship carried a complement of 454 men.

The only notice General Limas took of the notice was orderan that no Cubans would be permitted to leave tomorrow.

The evening Lieutenant Colonel Astor of General Shafter's staff, was informed by a courier that the Spanish generals were considering terms of surrender. The courier's report, however, is altogether unconfirmed and is discredited by General Shafter.

Tonight the men are anxious for a general engagement on the Fourth of July, but the officers do not expect it. The general belief is that the crushing of Admiral Cervera's fleet entirely changes the situation, now that Admiral Sampson can enter the harbor and the army and navy can make a combined attack on the city. It is not believed that General Shafter will make a decisive move until that question is definitely settled.

Admiral Sampson and General Shafter had arranged for a conference this morning and had an escort of cavalry at the dock here awaiting Admiral Sampson and his staff. Admiral Cervera's dash for liberty compelled the New York to leave the harbor and rush to the scene of conflict. The conference was interrupted to wipe out the Spanish fleet, but will doubtless be resumed.

HAVEN'T HEARD THE NEWS.

Spain's Ministers Protest Ignorance of the Destruction of Cervera's Fleet.

Madrid, July 5.—An official dispatch from Santiago de Cuba yesterday says: "Admiral Cervera's fleet sustained for an hour the fire of the American fleet. It then disappeared westward, followed by the American squadron. We lost two torpedo-boat destroyers."

The dispatch then announces as follows: "To General Shafter's demand for the surrender of the city, expiring at 10 o'clock the next morning, the Spanish commander replied: 'It is my duty that orders me to defend the place to the end!'"

The ministers, on leaving the cabinet council, said they knew nothing of Admiral Cervera's squadron farther than the dispatches received.

Lieutenant General Correa, minister of war, said he believed Admiral Cervera had gone to Havana.

STATEMENT TO FOOL THE DONS.

Madrid, July 5.—The following semi-official statement was issued yesterday afternoon: "The semaphore from Morro castle to Santiago says the Spanish squadron after a cannonade with the Americans showed no signs of injury, therefore, the Americans' news of the rout of Admiral Cervera must be utterly untrue. Moreover Admiral Cervera's squadron is faster than Admiral Sampson's."

SEARCHED FOR A POSTPONEMENT.

London, July 5.—A dispatch was received at the foreign office here yesterday from the British consul at Santiago de Cuba saying he had obtained a postponement of the bombardment of that city in order to allow 20,000 non-combatants to leave the city. The coast and the British subjects will embark on board ships in the harbor.

TO ATTACK MANILA.

Hong Kong, July 5.—The United States dispatch-boat Zafiro, which arrived here yesterday from Gavite with the report that the American troops arrived on June 30, reports also that Admiral Dewey, when the Zafiro left on July 1, was planning to attack Manila with the fleet and the troops on July 4th.

CAMARAS' FLEET.

Has Re-entered the Harbor of Port Said.

Port Said, July 5.—The whole of Admiral Camara's squadron has re-entered the harbor, including the transports. The Spanish torpedo-boat destroyer Proserpina and the collier San Augustin have also arrived.

ADVISED TO SEEK PEACE.

London, July 5.—The Times remarks editorily this morning: "Admiral Sampson's brilliant exploit was as complete as Admiral Dewey's was. It is not easy at this moment to foresee the wide consequences of the unchallenged supremacy of the American fleet in Cuban waters. Overpowered, after a heroic defense, Spain's only course is—her friends even in the French press urge her—to seek peace, which even if onerous, cannot be dishonorable."

GERMANY'S CONCESSION.

Shanghai, July 5.—It is reported here on good authority that Germany has arranged a concession for a port in the Philippines islands, ante-dating the present situation there.

CHICKAMAUGA.

Fourth Celebrated With Enthusiasm by the Soldiers.

Chattanooga, Tenn., July 5.—The Fourth of July was celebrated here yesterday with an enthusiasm and a genuine spirit of patriotic fervor never before shown in this city. Elaborate exercises were held at the big city auditorium, into which 6,000 citizens and soldiers were crowded. Brigadier General Fred D. Grant was present in full uniform and read the declaration of independence. General Grant was given a great ovation, the immense audience cheering for several minutes when he appeared on the rostrum. A patriotic address was delivered by Colonel Govan of the First Mississippi, who was a gallant confederate soldier, who "glorified in the fact that he now wore the uniform of a United States officer."

SENATORS CHEERED.

Washington, July 5.—There was profound interest in the achievement of Admiral Sampson and his fleet at Santiago in the Senate yesterday, the only branch of congress in session. Admiral Sampson was read and cheered in that body, as well as by the comment in the cloak rooms.

SPAIN'S LOSING GAME.

THINGS WHICH HAVE SLIPPED FROM HER GRASP IN THREE HUNDRED YEARS.

Macaulay drew this picture of the power of Spain 300 years ago:

The empire of Philip II was undoubtedly one of the most powerful and splendid that ever existed in the world. It is no exaggeration to say that during several years his power over Europe was greater than even that of Napoleon. In America his dominions extended on both sides of the equator into the temperate zone. There is reason to believe that his annual revenues amounted, in the season of his greatest power, to a sum ten times as large as that which England yielded to Elizabeth. He had a standing army of 50,000 troops when England did not have a single battalion in constant pay. He held, what no other prince in modern times has held, the dominion both of the land and the sea. During the greater part of his reign he was supreme on both elements. His soldiers marched up to the capital of France; his ships menaced the shores of England. Spain had what Napoleon desired in vain—ships, colonies and commerce.

TUESDAY, JULY 5, 1898.

The Lagrange Standard announces the candidacy of E. G. Machan, of Lagrange county, for superintendent of public instruction. Prof. Machan has been superintendent of that county for seventeen years and is recognized as one of the best school men in the state.

HISTORY has recorded no more noteworthy July 4th than that of 1898, since the day that our fathers proclaimed our independence in 1776. The entire day was a series of reports from army and navy of victories won and of glorious achievements by both officers and men.

EVERY development of this war with Spain demonstrates afresh that the same spirit of liberty, the same valor and coolness in fight permeates our nation today as thoroughly as they did in the days of our war for independence or in the civil war to preserve the Union. The same love of country is here that counts no sacrifice, not even life itself to dear it given in the cause of human freedom. Men have been daring almost to foolhardiness but it has shown that this nation possesses in large quantity the stuff of which heroes are made. And after all this is the strongest defense of any nation.

THE American people probably, all things considered, never passed a more satisfactory Fourth of July than this one. Gen. Shafter has justified all the confidence reposed in him by winning a series of glorious victories at Santiago, victories in which Admiral Sampson and his gallant sailors won new honors for the American navy, and which add no little to the respect felt by the world for the fighting qualities of America. There is only one drawback to the general rejoicing and that is the large number of killed and wounded on our side. The victories have been glorious, but they have also been bloody. But such is war. The peans of victory are with rare exceptions, such as the victory of Dewey in Manila Bay, always mingled with mourning cries for the gallant dead and sympathetic tears for the brave men wounded.

Among the candidates for the various offices to be voted for this coming fall on the state ticket, we know of none more deserving of the hearty support of the people than O. H. Montgomery of Seymour, who is spoken of as a candidate for Judge of the Supreme Court from the Second Judicial district. As Mr. Montgomery is a resident of this 4th Congressional district, we know of no reason why he should not have the solid and enthusiastic support of the district. Cleanhanded, an able lawyer, and an eloquent speaker and a Republican of unquestioned integrity. Mr. Montgomery deserves and we believe will receive the nomination.—Batesville Tribune.

Free Pills.

Send your address to H. E. Bucklen & Co., Chicago, Ill., and get a free sample of Dr. King's New Life Pills. A trial will convince you of their merits. These pills are easy in action and are particularly effective in the cure of Constipation and Sick Headache. For Malaria and Liver Trouble they have been proved invaluable. They are guaranteed to be perfectly free from every deleterious substance and to be purely vegetable. They do not weaken by their action, but by giving tone to the stomach and bowels greatly invigorate the system. Regular size 25 cents per box. Sold by W. F. Peter, druggist.

75 Cents to Cincinnati and Return.

Via B. & O. S-W. Sunday, July 10th, 1898. Special train leaves Seymour at 6:00 a.m., returning leaving Cincinnati at 7:30 p.m. J. P. HONAN, Tkt. Agt.

Motherhood is a woman's brightest crown.

It is a woman's glory to be strong and capable in a feminine way. Her worst misfortune is to have any physical weakness affecting the delicate, special organism which is involved in motherhood.

To insure the complete health and normal capability of this most important structure, is the purpose of Dr. Pierce's Favorite Prescription. It gives tone and vitality to the entire nervous system; and strength and vigor to the organism of maternity. It makes motherhood possible, safe and comparatively easy and painless.

Its wonder working capacity is exemplified in the trying experience of Mrs. A. Block, No. 221 Jackson St., Trenton, N. J., who writes: "I began taking Dr. Pierce's Favorite Prescription when I was about six months pregnant with my sixth child, as I felt miserable, and it helped me so soon after. Four years ago, on the 17th of January, when I was only five below zero, my seventh child was born, and I have been well ever since. I thank my husband for nine weeks. With the help of your medicine I stood it off. For the last year I have been doing nearly all my work including the care of eight children, and I am doing well, thank God, and hope I will be for a long time. I owe my health to God and your medicine."

One of the greatest helps a mother can have in nursing and rearing her children and carrying them safely through all the little sicknesses and ailments to which children are subject is Dr. Pierce's great thousand-page illustrated book, the People's Common Sense Medical Adviser." A paper-bound copy will be sent free for one cent stamps to pay the cost of mailing or, in heavy French cloth covers for 25 cents. Address World's Dispensary Medical Association, Buffalo, N. Y. This book should be owned by every mother. It is like a family doctor always at hand.

Married: Frank Durham and Miss Mary Slade were united in marriage Sunday eve July 2, 1898, at the home of the bride's parents by Elder F. M. Brock, of Rorden. They will leave Tuesday for Danvers, Ill., where they will make their future home. May their wedded life be pleasant and their joys as deep as the ocean and their troubles as light as its foam is the wish of their host of friends.

Reunion of the 22nd Indiana.

The reunion of the twenty-second Indiana Volunteers will be held in Crothersville, Ind., August 18 and 19. This is the regiment which was taken to the field by Gen. Jeff. C. Davis, who afterward commanded the fourteenth army corps. This regiment enrolled more men (2,800) from first to last than any other regiment from this state. The first officer killed in this regiment was Mr. Gordon Tanner, the father of George Tanner of Crothersville. Charles Holstein was the first adjutant of this regiment.

The Fourth at Kurz was celebrated in grand style. Addresses were delivered by Judge W. K. Marshall and Carl Wood, of Seymour. The attendance was large. Refreshments in abundance were on hand.

The Fourth was pleasantly celebrated at Crothersville. A large assemblage of people was present and were addressed by John M. Lewis, Jr., Jos. Cribbfield and F. J. Brock who were listened to attentively.

Judge Voyles' Condition

Judge W. K. Marshall is in receipt of a letter from Hon. J. C. Lawler, of Salem, stating that Judge Voyles is getting much better and that his improvement is of a permanent character. He is able to move about the house some and anxious for the time to come when he can be at work as formerly.

John W. Conner, of the Thomas Clothing Co., has taken a week's off for rest and recreation and he and his family went this morning to Cincinnati to spend some time with friends.

Mrs. Dr. McCullough, eldest daughter of E. C. Devore, formerly of Seymour, who resides at Cartage, Mo., after a pleasant visit to Mrs. Freeman Heaton and family left today for Brooklyn, N. Y., to see friends.

For a perfect complexion and a clear, healthy skin, use COSMO BUTTERMILK SOAP. Sold by C. W. Milhouse, ddm.

INDIANA FOLKS HONORED.

Tney Have the Best Line Selected as their Official Route.

Indiana folks who attend the Seventeenth International Christian Endeavor convention at Nashville, Tenn., or the National Educational Association Meeting at Washington, D. C., next month will be interested in the announcement that the Pennsylvania Lines have been selected as the official route for both events.

Dr. F. C. Heath, master of transportation Indiana Union Christian Endeavor, Indianapolis, has just issued his official circular naming the Pennsylvania route through Indianapolis and Louisville as the official one for the International Convention at Nashville. The official train will leave Indianapolis over this route at 11 o'clock a. m., July 5th, and go through to Nashville without change, arriving there at 7 p. m. same day. The hour of departure from Indianapolis, 11 a. m. July 5th, is a convenient one for all Endeavorers and friends to rendezvous at the state capital. Excursion tickets will also be sold for all regular trains over the Pennsylvania Lines July 2d to 5th, inclusive, good returning until July 15th. Stop-over privileges will be granted to enable excursionists to visit famous Mammoth Cave. There will also be special side trips and excursions from Nashville to Chickamauga National Military Park at Chattanooga arranged for their pleasure. Dr. Heath cordially invites all persons who may desire to make a most delightful trip to place themselves in correspondence with him or district passenger agent W. W. Richardson, of the Pennsylvania Lines, Indianapolis.

For the trip to the National Education Association Meeting at Washington the state committee consisting of Messrs. W. R. Snyder, Muncie, D. M. Geeting, Indianapolis, and C. F. Patterson, Edinburg, announce in an official circular that the Pennsylvania will be the official route.

No Stamps on Receipts.

There has been a report current here since the new war revenue law went into effect that the law required a stamp on every receipt for money amounting to five dollars and over. No such a provision was clearly set forth in the copies of the law, but in order to settle the matter, a letter was written to Ambrose E. Nowlin, who is the internal revenue collector for this district, stating what the report here was asking whether it was correct. He replied as follows: "Report is incorrect. No receipts for money require stamps."

A GREAT VICTORY.

FIRST NEWS FROM SANTIAGO CONFIRMED

If the City Did not Surrender at Noon Today Shafter Begun Bombardment.

When the American citizen reads the story today of the greatest of modern naval battles he will feel constrained to go out and celebrate the Fourth afresh.

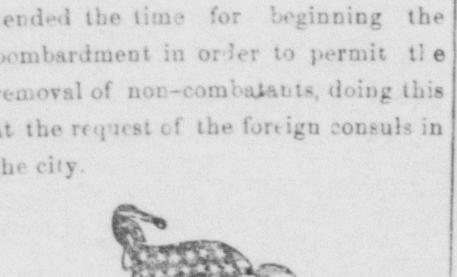

The story of the battle is full of dramatic episodes, conspicuous among which is the destruction of the two torpedo boats by the Gloucester, under command of Lieut. Commander Wainwright, formerly of the Maine.

Admiral Cervera's flagship was the last to yield. The Admiral continued the struggle until his vessel had caught fire and been beached ten miles from Morro.

At noon today, according to the terms announced to the Spanish commander in Santiago, Gen. Shafter will bombard the city unless it surrenders. He extended the time for beginning the bombardment in order to permit the removal of non-combatants, doing this at the request of the foreign consuls in the city.

Misses Carrie and Alma Rottman returned today to Indianapolis from a visit to their aunt Mrs. Garriott Massman.

Mrs. E. A. Remy and daughter, Margaret, have gone to Iron Mountain, Michigan, to spend a few weeks with Mrs. Remy's sister, Mrs. E. E. Brewster.

Edward Appel and sister-in-law, Mrs. Will Winter, of Indianapolis, after a pleasant visit to George L. Williams and family, returned home last evening.

Prof. H. C. Montgomery started to Washington City this morning to attend the annual meeting of the National Educational Association. He will be gone several days.

It is now estimated that 250 to 300 Americans were killed in the two days' fighting at Santiago, and the total of dead wounded and missing at between 1,200 and 1,500. The cavalry division alone lost thirty officers killed and wounded.

The British Consul at Hong Kong has notified Rear Admiral Dewey that the Spanish fleet has passed through the Suez canal. The Spanish torpedo boats which were with the fleet were sent back to Messina Sicily.

Ohio Baking Powder Tests.

Gen. S. H. Hurst, Food and Dairy Commissioner at the time of the official analyses, writes of

Cleveland's Baking Powder

"The analyses and comparison of the best eight brands of cream of tartar baking powder show that Cleveland's Superior baking powder is the richest in cream of tartar, and richest in gas product, or leavening power, and having no unhealthy or impure element in it, it is absolutely the best and most desirable baking powder manufactured."

A GREAT VICTORY.

FIRST NEWS FROM SANTIAGO CONFIRMED

If the City Did not Surrender at Noon Today Shafter Begun Bombardment.

When the American citizen reads the story today of the greatest of modern naval battles he will feel constrained to go out and celebrate the Fourth afresh.

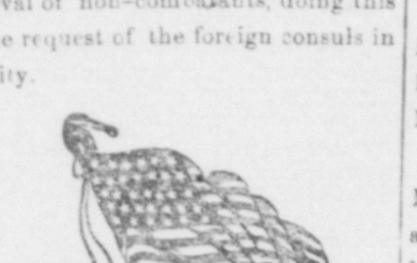

The story of the battle is full of dramatic episodes, one picuous among which is the destruction of the two torpedo boats by the Gloucester, under command of Lieut. Commander Wainwright, formerly of the Maine.

Admiral Cervera's flagship was the last to yield. The Admiral continued the struggle until his vessel had caught fire and been beached ten miles from Morro.

At noon today, according to the terms announced to the Spanish commander in Santiago, Gen. Shafter will bombard the city unless it surrenders. He extended the time for beginning the bombardment in order to permit the removal of non-combatants, doing this at the request of the foreign consuls in the city.

The glorious Fourth of July may have also seen the stars and stripes raised over Manila. When the Z. flo left for Hong Kong July 1 bearing official dispatches, Rear Admiral Dewey was planning to make an attack with the fleet and troops July 4.

It is now estimated that 250 to 300 Americans were killed in the two days' fighting at Santiago, and the total of dead wounded and missing at between 1,200 and 1,500. The cavalry division alone lost thirty officers killed and wounded.

The British Consul at Hong Kong has notified Rear Admiral Dewey that the Spanish fleet has passed through the Suez canal. The Spanish torpedo boats which were with the fleet were sent back to Messina Sicily.

Ohio Baking Powder Tests.

Gen. S. H. Hurst, Food and Dairy Commissioner at the time of the official analyses, writes of

Cleveland's Baking Powder

"The analyses and comparison of the best eight brands of cream of tartar baking powder show that Cleveland's Superior baking powder is the richest in cream of tartar, and richest in gas product, or leavening power, and, having no unhealthy or impure element in it, it is absolutely the best and most desirable baking powder manufactured."

TUESDAY, JULY 5, 1898.

THE Lagrange Standard announces the candidacy of E. G. Machan, of Lagrange county, for superintendent of public instruction. Prof. Machan has been superintendent of that county for seventeen years and is recognized as one of the best school men in the state.

HISTORY has recorded no more noteworthy July 4th than that of 1898, since the day that our fathers proclaimed our independence in 1776. The entire day was a series of reports from army and navy of victories won and glorious achievements by both officers and men.

Every development of this war with Spain demonstrates afresh that the same spirit of liberty, the same valor and coolness in fight permeates our nation today as thoroughly as they did in the days of our war for independence or in the civil war to preserve the Union. The same love of country is here that counts no sacrifice, not even life itself to dear if given in the cause of human freedom. Men have been daring almost to foolhardiness but it has shown that this nation possesses in large quantity the stuff of which heroes are made. And after all this is the strongest defense of any nation.

The American people probably, all things considered, never passed a more satisfactory Fourth of July than this one. Gen. Shafter has justified all the confidence reposed in him by winning a series of glorious victories at Santiago, victories in which Admiral Sampson and his gallant sailors won new honors for the American navy, and which add no little to the respect felt by the world for the fighting qualities of America.

There is only one drawback to the general rejoicing and that is the large number of killed and wounded on our side. The victories have been glorious, but they have also been bloody. But such is war. The peans of victory are with rare exceptions, such as the victory of Dewey in Manila Bay, always mingled with mourning cries for the gallant dead and sympathetic tears for the brave men wounded.

Among the candidates for the various offices to be voted for this coming fall on the state ticket, we know of none more deserving of the hearty support of the people than O. H. Montgomery of Seymour, who is spoken of as a candidate for Judge of the Supreme Court from the Second Judicial district. As Mr. Montgomery is a resident of this 4th Congressional district, we know of no reason why he should not have the solid and enthusiastic support of the district. Cleanhanded, an able lawyer, and an eloquent speaker and a Republican of unquestioned integrity. Mr. Montgomery deserves and we believe will receive the nomination.—Batesville Tribune.

THE LAGRANGE STANDARD.

VALLONIA.

J. A. Rick is home from a very pleasant business trip to Cincinnati.

Mrs. Mary Critcher, of Seymour, came down Saturday to visit her brother, John House, and wife.

Philip Achener who has been making his home with his sister at Sparks ville is here visiting friends.

Orni Tuell and wife, of Waskom, spent Sunday with his brother-in-law, Robert Wilson, and wife.

Mrs. John Roach and children of Medora, visited in the family of her sister, Mrs. Jesse Tuell, last week.

The ladies' aid society purchased a new carpet for the pulpit and also an aisle carpet for the Christian church.

Guy Copeland, night operator at Blocher, came home Saturday to visit his parents, James Copeland, and family.

Miss Geneva Stunkle, of Seymour, came down Saturday to spend the Fourth with her grandparents, Mr. and Mrs. Henry Fislar.

Misses Emma Fosbrink, Jessie Reynolds, Ruby Hunsucker, Mecca Humphrey and Messrs. Henry Fosbrink and James Trowbridge spent the Fourth at Crothersville.

Bob, a favorite old horse belonging to Azariah Empson, died Monday. The horse was once owned by Jerry Anderson, of Seymour.

John Clarke, of Mitchell, went home Saturday to spend the Fourth. Mr. Gossett, of Seymour, took his place as night operator until he returns.

Married: Frank Durham and Miss Mary Slade were united in marriage Sunday eve July 2, 1898 at the home of the bride's parents by Elder F. M. Brock, of Rorden. They will leave Tuesday for Danvers, Ill., where they will make their future home. May their wedded life be pleasant and their joys as deep as the ocean and their troubles as light as its foam is the wish of their host of friends.

Reunion of the 22nd Indiana.

The reunion of the twenty-second Indiana Volunteers will be held in Crothersville, Ind., August 18 and 19.

This is the regiment which was taken to the field by Gen. Jeff. C. Davis, who afterward commanded the fourteenth army corps. This regiment enrolled more men (2,800) from first to last than any other regiment from this state. The first officer killed in this regiment was Maj. Gordon Tanner, the father of George Tanner, of Crothersville. Charles Holstein was the first adjutant of this regiment.

The Fourth at Kurtz was celebrated in grand style. Addresses were delivered by Judge W. K. Marshall and Carl Wood, of Seymour. The attendance was large. Refreshments in abundance were on hand.

The Fourth was pleasantly celebrated at Crothersville. A large assemblage of people was present and were addressed by John M. Lewis, Jr., Jos. Cribbfield and F. J. Brock who were listened to attentively.

Judge Voyle's Condition

Judge W. K. Marshal is in receipt of a letter from Hon. J. C. Lawler, of Salem, stating that Judge Voyle is getting much better and that his improvement is of a permanent character.

He is able to move about the house some and anxious for the time to come when he can be at work as formerly.

John W. Conner, of the Thomas Clothing Co., has ta'en a week's lay off

for rest and recreation and he and his family went this morning to Cincinnati to spend some time with friends.

Mrs. Dr. McCullough, eldest daughter of E. C. Devore, formerly of Seymour, who resides at Carthage, Mo., after a pleasant visit to Mrs. Freeman Heaton and family left today for Brooklyn, N. Y., to see friends.

Motherhood is a woman's brightest crown.

It is a woman's glory to be strong and capable in a feminine way. Her worst misfortune

is to have any physical weakness affecting the delicate, special organism which is involved in motherhood. To insure the complete health and normal capability of this most important structure, the purpose of Dr. Pierce's Favorite Prescription gives tone and vitality to the entire nervous system; and strength and vigor to the organism of maternity. It makes motherhood possible, safe and comparatively easy and painless.

Dr. Pierce's working capacity is exemplified in the trying experience of Mrs. Mary J. Jackson St. Trenton, N. J., who writes: "I began taking Dr. Pierce's Favorite Prescription immediately after my sixth child, a full-sized male, was born. I had an easy time and felt well soon after. Four years ago, on the 13th of January, when my seventh child was born, after I had been without a sick husband for nine weeks. With the help of your medicine I stood it all. For the last year I have had no trouble at all excepting the care of eight children. I think Dr. Pierce is well, thank God, and hope I will be able to expect well. I owe my health to God and your medicine."

One of the greatest helpers a mother can have in nursing and rearing her children and carrying them safely through all the little sicknesses and ailments to which children are subject is Dr. Pierce's great thousand page illustrated book, the "People's Common Sense Medicine." A paper-bound copy will be sent free for 25 cent stamps to pay the cost of mailing or in heavy French cloth covers for 35 stamps. Address World's Dispensary Medical Association, Buffalo, N. Y. This book should be owned by every mother. It is like a family doctor always at hand.

The glorious Fourth of July may have also seen the stars and stripes raised over Manila. When the Z. fio left for Hong Kong July 1 bearing official dispatches Rear Admiral Dewey was planning to make an attack with the fleet and troops July 4.

It is now estimated that 250 to 300 Americans were killed in the two days' fighting at Santiago, and the total of dead wounded and missing at between 1,200 and 1,500. The cavalry division alone lost thirty officers killed and wounded.

The British Consul at Hong Kong has notified Rear Admiral Dewey that the Spanish fleet has passed through the Suez canal. The Spanish torpedo boats which were with the fleet were sent back to Messina Sicily.

General Linares Disposed to Fight It Out.

"President's Own" Regiment to Embark Tomorrow to Reinforce the American Troops In Front of Santiago—Description of the Warships Destroyed by the United States Fleet—Order for Troops at Chickamauga to Move to the Front Received.

Washington, July 5.—Late last night the navy department posted the suspended translation of a cipher cablegram received from Commodore Watson. It is similar to that received during the day from Admiral Sampson, but contains the additional information that 350 Spaniards were killed or drowned, 100 wounded and 1,000 captured. Commodore Watson's dispatch follows:

To the Secretary of the Navy, Washington Playa del Río, July 5.—At 9:30 a.m. today the Spanish squadron (seven in all) including one gunboat, came out of Santiago in column, and was totally destroyed within an hour, excepting Cristóbal Colón, which was chased 40 miles to westward by the commander-in-chief, Brooklyn, Oregon and Texas, surrendering to Brooklyn, but was beached to prevent sinking.

The release of Hobson and the other heroes of the Merrimac incident is likely to be one of the results of the events transpiring yesterday. It may now come about either by the surrender of the city, which would include the surrender of Hobson and other American prisoners in the city, or else by the exchange of Hobson for Admiral Cervera or some other high ranking naval official. To exchange a Spanish admiral for an American naval constructor might seem strange under ordinary circumstances, but it would be done without any bargaining by the authorities here and would be particularly appropriate in view of the action of Cervera at the time Hobson surrendered to him.

ANNIHILATED.

Sampson Reports Results of His Fight With Spain's Crack Fleet.

Washington, July 5.—The complete annihilation of the Spanish squadron at Santiago and the capture of the Spanish admiral, Cervera, with 1,300 prisoners; the demand by General Shafter for the surrender of Santiago by today noon on pain of bombardment; word from Admiral Dewey that the Ladrones Islands had been captured, that a Spanish gunboat had surrendered, that 100 or more Spanish officers and men were taken and that our first Philippine expedition had landed—this is in part the thrilling record of such a Fourth of July as has not been known since the bells of Independence Hall rang out the tidings of American freedom. Yesterday was a day when one momentous event followed another in constant and rapid succession, each hour bringing forth

The auxiliary cruiser St. Paul is now at New York taking on a cargo of ammunition for Admiral Sampson's fleet. It was not originally intended to send troops by her, but yesterday afternoon it was decided she should take one regiment. In accordance with that determination orders were issued for the Eighth Ohio infantry, the regiment known as "The President's Own," because it comes from the immediate vicinity of President McKinley's home, to proceed to New York and embark on the St. Paul for Santiago. The St. Paul will leave New York late tomorrow afternoon and will make a flying trip to Cuba.

In addition to the troops at Camp Alger, which are to be sent to Santiago, the brigades of General Ernest and General Hains, now at Chickamauga, will be sent within a few days. General Ernest's brigade consists of the Third Wisconsin, the Fifth Illinois and the First Kentucky.

Some new feature more startling than what had gone before. The climax came when, amid the wildest cheering, which fairly shook the great war-state and navy building to its foundation, Admiral Sampson's dispatch announcing his glorious victory and the entire destruction of the Spanish fleet, was given to the public.

Story Told by Sampson.

The story of the day is best told in the official dispatch, bearing date of July 4, from Sampson, from Shafter and from Dewey. Stirring as they all are, that of Sampson was accorded the honor of chief importance, not only for the immediate results secured, but also from

the effects of this crushing defeat in weakening the defences of the city of Santiago, and in dealing Spain such a staggering blow that she is left practically without a navy. Sampson's dispatch follows:

The fleet, under my command, offers the nation as a Fourth of July present the destruction of the whole of Cervera's fleet—one escaped. It attempted to escape at 9:30 a.m. and at 2 p.m. the last, the Cristóbal Colón, had run ashore, 63 miles west of Santiago, and had let down her colors. Loss, one killed and two wounded. Enemy's loss, several hundred, including 1,300 prisoners. Admiral Cervera taken prisoner.

That but one of our sailors, a yeoman on the Brooklyn, should have been killed in an engagement of such magnitude, is without a parallel in naval annals, save in that other unparalleled record which Dewey made at Manila. With the Spanish fleet destroyed, the way is partly cleared for the advance of the American squadron into the harbor of Santiago. If Cervera's armored cruisers could cross the mine field and clear the Merrimac at the entrance of the harbor, the American ships can follow the same course. There are the inner fortifications and island forts still to be reduced, but they have passed through a baptism of fire recently and are little more than ruins. Thus with Shafter's guns thundering on Santiago from the land, and Sampson's from the harbor, the fall of the city is assured beyond further question.

Shafter's Demand Still Being Considered.

General Shafter has cabled that his demand for the surrender of Santiago is still being considered by the Spanish authorities, which indicates that the refusal of the Spanish commander to capitulate was not final. In any event, 12 o'clock today marks the limit of Shafter's concession and if Santiago did not capitulate at that hour, the great sea guns, backed by the batteries of lighter field pieces, have begun their work of destruction.

The pressing head of reinforcing Shafter is no longer felt, nor that the Spanish fleet is out of the way. A considerable number of men, however, are already on the way and others will follow.

The changed naval situation will bring no abatement in the activity of the authorities here in carrying the war directly home to Spain.

There is renewed determination to get Commodore Watson's eastern squadron away at the earliest moment, for the double purpose of striking a blow at the coast towns of Spain and of pursuing Admiral Camara's fleet which has halted at the entrance of the Suez canal.

HOBSON'S RELEASE.

The release of Hobson and the other heroes of the Merrimac incident is likely to be one of the results of the events transpiring yesterday. It may now come about either by the surrender of the city, which would include the surrender of Hobson and other American prisoners in the city, or else by the exchange of Hobson for Admiral Cervera or some other high ranking naval official.

To exchange a Spanish admiral for an American naval constructor might seem strange under ordinary circumstances, but it would be done without any bargaining by the authorities here and would be particularly appropriate in view of the action of Cervera at the time Hobson surrendered to him.

REINFORCEMENTS.

The "President's Own" Regiment Will Be Sent to Shafter.

Washington, July 5.—Reinforcements are to be hurried to General Shafter as rapidly as steamships can carry them, notwithstanding the fact that additional troops are not now so badly needed as was indicated by the developments of Friday and Saturday.

The dispatches received by the war department from General Shafter show confidence in his present ability to control the situation.

Last yesterday Secretary Alger, General Miles and General Corbin had a conference with the president concerning the sending of reinforcements to Shafter and it was determined to take no chances, but to send the troops at once.

The auxiliary cruiser St. Paul is now at New York taking on a cargo of ammunition for Admiral Sampson's fleet.

It was not originally intended to send troops by her, but yesterday afternoon it was decided she should take one regiment.

In accordance with that determination orders were issued for the Eighth Ohio infantry, the regiment known as "The President's Own," because it comes from the immediate vicinity of President McKinley's home, to proceed to New York and embark on the St. Paul for Santiago. The St. Paul will leave New York late tomorrow afternoon and will make a flying trip to Cuba.

In addition to the troops at Camp Alger, which are to be sent to Santiago, the brigades of General Ernest and General Hains, now at Chickamauga, will be sent within a few days. General Ernest's brigade consists of the Third Wisconsin, the Fifth Illinois and the First Kentucky.

ORDER RESCINDED.

Troops Ordered to the Front Will Be Sent to the Front.

Killed On the Brooklyn Was a Native of Illinois.

Chickamauga National Military Park, Ga., July 5.—The railroad companies yesterday afternoon had all their trains on the siding at Rossville and Ringgold to carry the six regiments of troops ordered to the front and last night the Southern railroad had sent a Pullman train to Rossville to get General Wilson, who was to be in command of the expedition and his staff who were to leave for Charleston. At Rossville the trainmen received orders to return to the city, an order having been received from Washington rescinding the order to move the troops. It is understood from this that the department has made a complete change of plans.

Story Told by Sampson.

The story of the day is best told in the official dispatch, bearing date of July 4, from Sampson, from Shafter and from Dewey. Stirring as they all are, that of Sampson was accorded the honor of chief importance, not only for the immediate results secured, but also from

the effects of this crushing defeat in weakening the defences of the city of Santiago, and in dealing Spain such a staggering blow that she is left practically without a navy. Sampson's dis-

CERVERA'S FLEET.

Which Was Totally Annihilated by Sampson.

Washington, July 5.—The annihilation of Admiral Cervera's fleet is a terrible blow to Spain as this fleet was far more formidable than that wiped out by Admiral Dewey at Manila, and was the strongest flotilla of ships Spain had afloat. It consisted of the four armored cruisers Vizcaya, Oquendo, Cristóbal Colón and María Teresa and the three torpedo boat destroyers Pluton, Furor and originally the destroyer Terror, but last advices place her at San Juan, Porto Rico, where she had been crippled by the St. Paul.

The Vizcaya, María Teresa and Oquendo were sister ships built at Bilbao, in 1890-91. Their speed of 18.5 knots was given by engines having a

total power of 9,500. On forced draft they were capable of making 20.2 knots.

The armor of these ships made them particularly formidable. On the waterline there was a belt of armor 5 feet 6 inches broad and 315 feet long of 12 inches in thickness and of steel. The turrets were surrounded with 9 inches of steel armor, the conning towers 12 inches. The protected deck covering the vitals of the ship had from 2 inches to 3 inches of steel. Surrounding the ammunition tubes and magazines was a circle of 8 inches of steel.

The armament consists of 40 guns and from six to eight torpedo tubes on each ship. In detail these guns were two 11-inchontorios breechloading guns in turrets, one forward and one aft, ten 5.5-inchontorios quick fires, five on each beam, the forward and after ones being sponsored, eight 6-pounder quick fires. Ten 1-pounder quick fires, eight Nordenhoff machineguns, two Maxim machineguns.

The Vizcaya had six torpedoes and the other two ships eight torpedoes. On each ship two of the torpedoes were submerged. Each ship carried a complement of 484 men.

The Cristóbal Colón was substantially similar, but was of later build, being turned out in 1896 at Sestri Ponente. She was 6,110 tons, 328 feet long and in other respects was similar to the three first named ships, with slight variations. She carried a complement of 530 officers and men.

The torpedo boat destroyers were of the latest type of these formidable craft. Their armament consisted of six guns, the heaviest being 14-pounds, quick fire; also two 14-inch torpedo tubes on deck. Each had a complement of 70 officers and men.

The total number of men, officers and crew was 2,002 on the seven ships.

Statement to End the Dons.

Madrid, July 5.—The following semi-official statement was issued yesterday afternoon: "The semaphore from Moro castle to Santiago says the Spanish squadron, after a cannonade with the Americans showed no signs of injury, therefore, the Americans' news of the rout of Admiral Cervera must be utterly untrue. Moreover Admiral Cervera's squadron is faster than Admiral Sampson's."

The ministers, on leaving the cabinet council, said they knew nothing of Admiral Cervera's squadron further than the dispatches revealed.

Lieutenant General Correa, minister of war, said he believed Admiral Cervera had gone to Havana.

Secured a Postponement.

London, July 5.—A dispatch was received at the foreign office here yesterday from the British consul at Santiago de Cuba saying he had obtained a postponement of the bombardment of that city in order to allow 20,000 noncombatants to leave the city. The consul and the British subjects will embark on board ships in the harbor.

To Attack Manila.

Hong Kong, July 5.—The United States' dispatch boat Zafiro, which arrived here yesterday from Cavite with the report that the American troops arrived on June 30, reports also that Admiral Dewey, who the Zafiro left on July 1, was planning to attack Manila with the fleet and the troops on July 4th.

CAMARAS' FLEET.

Has Re-entered the Harbor of Port Said.

Port Said, July 5.—The whole of Admiral Camara's squadron has re-entered the harbor, including the transports. The Spanish torpedo boat destroyer Proserpina and the collier San Augustin have also arrived.

Advised to Seek Peace.

London, July 5.—The Times remarks editorially this morning: "Admiral Sampson's brilliant exploit was as complete as Admiral Dewey's was. It is not easy at this moment to foresee the wide consequences of the unchallenged supremacy of the American fleet in Cuban waters. Overpowered, after a heroic defense, Spain's only course is her friends even in the French press urge her to seek peace, which even if honorable cannot be dishonorable."

Germany's Concession.

Shanghai, July 5.—It is reported here on good authority that Germany has arranged a concession for a port in the Philippines islands, ante-dating the present situation there.

CHICKAMAUGA.

Fourth Celebrated With Enthusiasm by the Soldiers.

Chattanooga, Tenn., July 5.—The Fourth of July was celebrated here yesterday with an enthusiasm and a genuine spirit of patriotic fervor never before shown in this city. Elaborate exercises were held at the big city auditorium, into which 6,000 citizens and soldiers were crowded. Brigadier General Fred D. Grant was present in full uniform and read the declaration of independence.

Off Juaragua, July 3, via Port Antonio, Jamaica and Kingston, July 5.—General Shafter today demanded an instant and unconditional surrender of Santiago de Cuba. The Spanish commander curtly and emphatically refused. The American general in sending his demand warned all foreign residents out of the city before 10 o'clock tomorrow morning (July 4), at which hour the bombardment would be said, beginning.

The only notice General Linares took of the notice was order that no Cubans would be permitted to leave to-morrow.

This evening Lieutenant Colonel Astor of General Shafter's staff, was informed here occurred at a tent meeting, Rev. Mr. Bottom is holding a series of religious services and his tent is crowded nightly with hundreds of people.

Richard Devaton, a prominent young farmer, came to the meeting crazed with liquor and opened fire on the congregation with a revolver killing four people. Those killed were: John Bent Hale, a respectable farmer; a young man named Atkinson, Miss Julia P. Coulter and a Miss Campbell. The latter is the daughter of Rev. Mr. Campbell, who ran for representative against Hon. Morgan Chinn last fall. Devaton made his escape.

TUESDAY, JULY 5, 1898.

THE Lagrange Standard announces the candidacy of E. G. Machan, of Lagrange county, for superintendent of public instruction. Prof. Machan has been superintendent of that county for seventeen years and is recognized as one of the best school men in the state.

HISTORY has recorded no more noteworthy July 4th than that of 1898, since the day that our fathers proclaimed our independence in 1776. The entire day was a series of reports from army and navy of victories won and glorious achievements by both officers and men.

EVERY development of this war with Spain demonstrates afresh that the same spirit of liberty, the same valor and coolness in fight permeates our nation today as thoroughly as they did in the days of our war for independence or in the civil war to preserve the Union. The same love of country is here that counts no sacrifice, not even life itself to dear if given in the cause of human freedom. Men have been daring almost to foolhardiness but it has shown that this nation possesses in large quantity the stuff of which heroes are made. And after all this is the strongest defense of any nation.

THE American people probably, all things considered, never passed a more satisfactory Fourth of July than this one. Gen. Shafter has justified all the confidence reposed in him by winning a series of glorious victories at Santiago, victories in which Admiral Sampson and his gallant sailors won new honors for the American navy, and which add no little to the respect felt by the world for the fighting qualities of America. There is only one drawback to the general rejoicing and that is the large number of killed and wounded on our side. The victories have been glorious, but they have also been bloody. But such is war. The peans of victory are with rare exceptions, such as the victory of Dewey in Manila Bay, always mingled with mourning cries for the gallant dead and sympathetic tears for the brave men wounded.

Among the candidates for the various offices to be voted for this coming fall on the state ticket, we know of none more deserving of the hearty support of the people than O. H. Montgomery of Seymour, who is spoken of as candidate for Judge of the Supreme Court from the Second Judicial district. As Mr. Montgomery is a resident of this 4th Congressional district, we know of no reason why he should not have the solid and enthusiastic support of the district. Cleanhanded, an able lawyer, and an eloquent speaker and a Republican of unquestioned integrity. Mr. Montgomery deserves and we believe will receive the nomination.—Batesville Tribune.

No Stamps on Receipts.

There has been a report current here since the new war revenue law went into effect that the law required a stamp on every receipt for money amounting to five dollars and over. No such a provision was clearly set forth in the copies of the law, but in order to settle the matter, a letter was written to Ambrose E. Nowlin, who is the internal revenue collector for this district, stating what the report here was asking whether it was correct. He replied as follows: "Report is incorrect. No receipts for money require stamps."

A GREAT VICTORY.

FIRST NEWS FROM SANTIAGO CONFIRMED

If the City Did not Surrender at Noon Today Shafter Begun Bombardment.

When the American citizen reads the story today of the greatest of modern naval battles he will feel constrained to go out and celebrate the Fourth afresh.

The story of the battle is full of dramatic episodes, conspicuous among which is the destruction of the two torpedo boats by the Gloucester, under command of Lieut. Commander Wainwright, formerly of the Maine.

Admiral Cervera's flagship was the last to yield. The Admiral continued the struggle until his vessel had caught fire and been beached ten miles from Morro.

At noon today, according to the terms announced to the Spanish commander in Santiago, Gen. Shafter will bombard the city unless it surrenders. He extended the time for beginning the bombardment in order to permit the removal of non-combatants, doing this at the request of the foreign consuls in the city.

The glorious Fourth of July may have also seen the stars and stripes raised over Manila. When the Z. fio left for Hong Kong July 1 bearing official dispatches, Rear Admiral Dewey was planning to make an attack with the fleet and troops July 4.

It is now estimated that 250 to 300 Americans were killed in the two days' fighting at Santiago, and the total of dead wounded and missing at between 1,200 and 1,500. The cavalry division alone lost thirty officers killed and wounded.

The British Consul at Hong Kong has notified Rear Admiral Dewey that the Spanish fleet has passed through the Suez canal. The Spanish torpedo boats which were with the fleet were sent back to Messina Sicily.

Ohio Baking Powder Tests.

Gen. S. H. Hurst, Food and Dairy Commissioner at the time of the official analyses, writes of

Cleveland's Baking Powder

"The analyses and comparison of the best eight brands of cream of tartar baking powder show that Cleveland's Superior baking powder is the richest in cream of tartar, and richest in gas product, or leavening power, and, having no unhealthy or impure element in it, it is absolutely the best and most desirable baking powder manufactured."

FOR ALL WOMEN

NINE-TENTHS of all the pain and sickness from which women suffer is caused by weakness or derangement in the organs of menstruation. Nearly always when a woman is not well these organs are affected. But when they are strong and healthy a woman is very seldom sick.

M'ELREE'S Wine of Cardui

is nature's provision for the regulation of the menstrual function. It cures all "female troubles." It is equally effective for the girl in her teens, the young wife with domestic and maternal cares, and the woman approaching the period known as the "Change of Life." They all need it. They are all benefitted by it.

For advice in cases requiring special directions, address, giving symptoms, the "Ladies' Advisory Department, The Chattanooga Medicine Co., Chattanooga, Tenn."

THOS. J. COOPER, Tupelo, Miss., says:
"My sister suffered from very irregular and painful menstruation and doctors could not relieve her. Wine of Cardui entirely cured her and also helped my mother through the Change of Life."

Reduced Fares to Various Points via Pennsylvania Lines.

Excursion tickets will be sold via Pennsylvania Lines as indicated in the following paragraphs. Although concessions in fare are authorized for meetings of certain orders, tickets may be obtained by any person whether a member of the order or interested in the event. The reduced rates will be open to everybody.

THE SHIP'S RUDDER.

IT'S TWO PARTS AND THE DIFFERENCE IN THE STRAIN THAT COMES UPON THEM.

The rudder of a wooden ship is composed of the stalk and the backing, which are so joined together as to form in effect a single piece. The complete rudder is coppered, to protect it from worms, and then, besides being practically all in one piece, it has that appearance also.

The stalk is the part to which are attached the pintles, or pivots, by which the rudder is suspended and held in place, these going through eyes set in the ship's sternpost. The stalk runs up through the stern of the ship, and to its head is bolted a cap to which are attached the ropes by means of which the rudder is controlled. The backing is the blade part of the rudder.

By far the greater strain comes on the stalk, and the greatest strain of all comes on the head of the stalk, the rudder head, where it is held. The stalk is made of the wood most likely to stand the strain, carefully selected, sound, well seasoned oak, while the backing is made of spruce or hard pine.

The stalk is of a single, solid, massive piece, stout as an oak tree and indeed of the dimensions of a small oak; something that a man can pin his faith to, if he can have faith in any wood, while the backing or blade is, like many modern wooden masts, built up.

It would be difficult if not impossible to find trees that would yield planks big enough for the purpose in a single piece, and the built up backing, made of pieces of selected wood, can easily be made of ample strength to withstand any strain that will be brought upon it.

As to the stalk, stout and solid as the oak may be, the head may be twisted by the force of a tremendous blow from a wave upon the rudder, or, under the repeated strains of long use, the head may split, and so make the stalk useless.

Then the rudder is taken out and fitted with a new stalk. A suitable stick

is selected and worked down to the proper size and form, and very probably the old backing is attached to it.

The life of a rudder stalk would probably be 12 to 14 years. The backing might last as long as the ship.—New York Sun.

EXCERPTION.

A London curate the other day received an astonishing answer to an inquiry after a parishioner's health.

"Well, sir," said the parishioner, "sometimes I feels anyhow, sometimes I feels somehow and there be times when I feels as stiff as a hambridge."
